SUMMARY

I'm a software developer in the Philippines and a part of a team based in Belfast, heavy experience in front-end using *JavaScript* and *Typescript* as my primary Language and some framework and library especially *Angular* and all its version, *React*, *NodeJS* and, *MongoDB* as my experienced database handle and data structuring, I have practiced myself to a quality of Development Standard and Ethics in coding as universal.

Throughout the years I have been employing myself to be the best of my self and the best of my current industry. I've never stop in improving myself and seek for better knowledge to get what is necessary in my line of work.
